SKULL

Gertruds
UNIVERS

SKULL

What you will need:

Colors:

- White (Superstar White)
- Black (DFX black)
- Back/white rainbow or split cake (e.g. DFX Black out)

Tools:

- Flat brush no. 3/4" or 1"
- Round brush no. 3 or 4
- Petal sponge

SKULL

Step 1

Use a flat brush and a black-and-white split cake to paint the skull's base shape, with black on the outside

Step 2

Using the same brush, define the eye sockets, keeping black on the inside and white towards the outer edge.

Step 3

Fill the eye sockets with black using a brush or sponge. Add white around the nose and mouth.

Step 4

Using a round brush, paint white teeth along the upper lip.

Add black lines between and around the teeth.

Step 5

Paint the nose black with a round brush, following the skull's natural anatomy.

Step 6

Finish with fine black cracks scattered across the face.
