Roses

One-stroke technique:

A rose can be created using the one-stroke technique and consists of 4 basic brush strokes:

- Inverted U-shape
- U-shape
- Angled brush stroke on one side
- Angled brush stroke on the other side

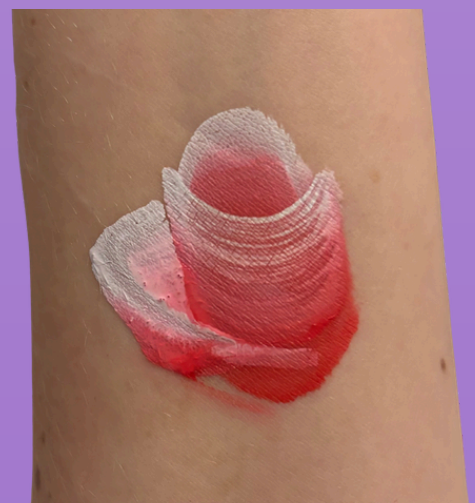

Step A.

Step B.

Step C.

Roses

Step 1

Apply a light color, such as pink, around the eye using a sponge.

Step 2

Using the one-stroke technique, paint 3 roses near the eye. Add small details with white or green.

Simple flower design around the eye: Use the double-dip technique with a round brush or petal brush. The leaves are painted with an angle brush.
