Tiger

Step 1

Using a sponge, apply white above the eyes and between the nose and mouth.

Step 2

Use the sponge to apply yellow between the eyes, on the nose, and over the cheekbones.

Step 3

Apply orange over the yellow and gently blend the two colors together with the sponge

Step 4

Using a brush, paint a black nose. Paint the tiger stripes towards the inner corner of the eye. Use a thin-thick-thin brush stroke.

Step 5

Add tiger stripes on the forehead. Then paint the muzzle from the corner of the mouth up towards the side of the nose.

Step 6

Add tiger stripes along the cheeks and whisker dots or fine lines. Finish by painting small teeth at the corners of the mouth.
